ALL PROCEEDS GO TO our children's charity in Ottery, Cape Town

Established in 1998, Christel House is an **international charitable R-12 school** that operates eight learning centres around the world, with a single mission: to **break the cycle of poverty** and to build self-sufficient, contributing members of society. Our school in Ottery is the only Christel House institution in Africa and each of our **750 students** attending Christel House South Africa comes from one of **twenty severely impoverished communities** in the Cape Flats.

At Christel House South Africa, we recently launched our **Feed a Future fundraising campaign** in aid of our year-round nutrition program. As a key component of our model, **we provide two meals and a snack daily to each of our students.** www.sa.christelhouse.org.
